

$3 \cdot 2 =$

$+$

$=$

The image illustrates the multiplication of 3 by 2 using visual models. On the left, the expression $3 \cdot 2 =$ is shown. This is followed by a vertical column of 3 light blue squares, representing the first factor of 3. Then, a plus sign $+$ is shown, followed by another vertical column of 3 light blue squares, representing the second factor of 2. This is followed by an equals sign $=$, and finally, a 2x3 grid of 6 light blue squares, representing the product of 3 and 2.
