

A diagram illustrating an equation. On the left, a white square with a black border contains the italicized letter x . To its right is an equals sign. On the right side of the equals sign is a 3x3 grid of squares. The top-left square is white with a black border. The remaining eight squares (the entire second and third rows, and the bottom-right square of the first row) are filled with light blue and have black borders.

$$x = \begin{array}{|c|c|c|} \hline & & \\ \hline & & \\ \hline & & \\ \hline \end{array}$$
