

The image shows a mathematical equation using colored squares to represent variables. The equation is:

$$\begin{array}{|c|} \hline x \\ \hline \end{array} + \begin{array}{|c|c|} \hline \text{blue} & \text{blue} \\ \hline \text{blue} & \text{blue} \\ \hline \end{array} - \begin{array}{|c|c|} \hline \text{red} & \text{red} \\ \hline \text{red} & \text{red} \\ \hline \end{array} = \begin{array}{|c|c|c|} \hline \text{blue} & & \\ \hline \text{blue} & \text{blue} & \text{blue} \\ \hline \text{blue} & \text{blue} & \text{blue} \\ \hline \end{array} - \begin{array}{|c|c|} \hline \text{red} & \text{red} \\ \hline \text{red} & \text{red} \\ \hline \end{array}$$

The equation consists of the following components from left to right:

- A white square with a black border containing the variable x .
- A plus sign (+).
- A 2x2 grid of light blue squares with blue borders.
- A minus sign (-).
- A 2x2 grid of light red squares with red borders.
- An equals sign (=).
- A 3x2 grid of light blue squares with blue borders (the top row has one square, the bottom two rows have two squares each).
- A minus sign (-).
- A 2x2 grid of light red squares with red borders.
