

A diagram illustrating an equation. On the left, a white square with a black border contains the italicized letter x . To its right is an equals sign. On the right side of the equals sign is a 3x4 grid of 12 light blue squares, each with a black border.

$$x = \begin{array}{|c|c|c|c|} \hline \text{light blue square} & \text{light blue square} & \text{light blue square} & \text{light blue square} \\ \hline \text{light blue square} & \text{light blue square} & \text{light blue square} & \text{light blue square} \\ \hline \text{light blue square} & \text{light blue square} & \text{light blue square} & \text{light blue square} \\ \hline \end{array}$$
