

The diagram illustrates the decomposition of a variable x into three stacked blue squares. On the left, three identical white squares, each containing the variable x , are separated by vertical dashed lines. An equals sign follows. To the right of the equals sign, three identical blue squares are stacked vertically, also separated by vertical dashed lines. This visualizes the equation $x = x + x + x$.

$$\begin{array}{|c|} \hline x \\ \hline \end{array} \quad \begin{array}{|c|} \hline x \\ \hline \end{array} \quad \begin{array}{|c|} \hline x \\ \hline \end{array} = \begin{array}{|c|} \hline \text{blue square} \\ \hline \text{blue square} \\ \hline \text{blue square} \\ \hline \end{array}$$
